### Between Fall and Flight

A teeterboard propels two men into the theatrics of the bodies; into the fertile play of flight and the provocation of a fall. Ugo and Maxim, accompanied by a musician, set out to discover themselves... and each other. Driven by powerful music, they conjugate the past and the future, into the here and now. In an uncluttered circular space, let this singular trio carry you away with their lightdark acrobatic performance: *Ghost Light*!
